PROPOSAL (to be completed by the proposer)

Title of proposed deliverable(s): *(in the case of an amendment, revision or a new part of an existing document, show the reference number and current title)*
ISO 22002-100_2025 Prerequisite Programmes on food safety: Part 100-Requirements for food, feed and packaging supply chain

Scope of the proposed deliverable(s):

The document SSB-ISO 22002-100_2025 specifies the common the requirement for establishing, implementing and maintaining prerequisites (PRP) throughout the food, feed and food packaging supply chain to assist in controlling food safety hazards with a food safety management system (FSMS).
The document will be applicable to all organizations regardless of size that are involved in the activities across the food, feed and packaging supply chain for who it is mandatory to implement

The proposal to develop a new document. See scope document ISO 22002-100:2025

Purpose and justification of the proposal: *(Describe the trade related, economic, social advantages and/or environmental conditions which would result from the development of the proposed standard)*

Suriname has a lack of food safety standards. It should be mandatory by law that startup companies meet the minimum requirement to guarantee safe food for all. There is a lack of monitoring and control to inspect companies and the inspectors should work with updated guidelines.

Adoption of a Regional or International standard(s) *(optional)*
